PERSONAL PROJECTS

Food Delivery Website

- A modern and responsive **food delivery website** built using **React.js** and **Tailwind CSS** , offering a seamless user experience. Features include an interactive menu, cart functionality, and smooth navigation with **React Router** . Designed for fast performance and mobile-friendly browsing, ensuring users can easily explore and order their favorite meals.

Logistic Website

- A sleek and responsive **logistics website frontend** built with **React.js** and **Tailwind CSS** . It features a user-friendly interface for tracking shipments, managing deliveries, and exploring logistics services. Designed for **smooth navigation, fast performance, and a modern look** , ensuring a seamless user experience.

Image Gallery

- A dynamic **image gallery website** built with **React.js** , featuring a seamless API integration to fetch and display high-quality images. Designed with **Tailwind CSS** for a modern and responsive layout, allowing users to explore images effortlessly. Includes features like **infinite scrolling, search functionality, and smooth transitions** for an enhanced user experience
